The financial report for April 30 was presented to council, and there were no questions from members present.

Ken gave an update on the public angler education that was held on the weekend May 7 to 9 at the Lubbock. He said there was 40 to 50 fisherman per day, all were respectful, no excessive catch and release. Quite a few fish were observed in the river. Most people that were camped and fishing at the Lubbock were appreciative of the presentation and had lots of questions.
